Education

Associates in Software Application Development

ITT Technical Institute, May 2005

Experience

Lead Applications Architect

Apr 2019 – Jun 2020

Higher Education at Red Ventures

- Gracefully deprecated and migrated off of several legacy systems
- Documented existing applications and processes
- Assisted moving apps from Rancher to AWS ECS/Fargate
- Helped to rebuild existing monetization engine and internal business systems in NodeJS/JSON Schema/Fastify/Redis

Software Architect

Mar 2010 – Apr 2019

Higher Education

- Helped to build extensive lead generation and monetization engine in PHP, Symfony and MySQL
- Helped to create and maintain Wordpress-centric network of content sites, managed with Ansible and Capistrano, that eventually were used to drive monetization
- Maintained existing systems and helped rebuild PHP monolith as individual microservices in NodeJS, Express, Angular (multiple iterations over multiple years)
- Assisted Sys Admin and Ops teams in moving apps from hosted Rackspace hardware to EC2-backed Rancher
